

1st Quarter Art News

We are excited to have completed our first quarter of the year. All grade levels have been able to finish up their first art project of the year as well.

Kindergarten – We have learned about shapes and colors while creating various animals.

1st Grade – We have learned about primary colors and types of lines as well as artist like Piet Mondrain and Joan Miro. We've made trains and silly people.

2nd Grade – We have worked with directional lines as well as cubism. They created fall trees with a cubism style. We are now exploring color mixing.

3rd Grade – Has been working on complementary colors as well as geometric and organic shapes. They have painted fall leaves and now masks.

4th Grade – Began the year learning about contour and gesture line drawing. They created gesture drawings and painted them. We are now exploring the color wheel.

5th Grade – We have started the year learning about the value scale and creating tints and shades. Students are finishing a piece with a word that is important to them and practicing some pencil shading with the letters.
